## IP-BARRIER

gate AS

- LED lighting in barrier arm and hood
- License Plate Recognition integrated
- Suitable for high volume facilities
- Can be installed in left or right hand drive lanes

# IP-Barrier Gate AS

The IP Parking Barrier Gate AS is a robust, industrial-grade solution for demanding environments. Featuring an 84mm round barrier arm that extends from 3.5 to 5 meters, it offers superior control for narrow and wide lanes. An integrated LPR camera enables seamless drive-through access for both ticketed and ticketless parking. Clear red/green LED signaling on the cap and barrier arm ensures effective communication for drivers regarding access status. Additionally, a raised base option is available, suitable for locations with heavy truck traffic.

Motion time  
**4 sec**

Power supply  
**100-240 VAC**

Max. consumption  
**335 VA**

Temperature  
**-20 to +50 °C**  
**-4 to +122 °F**

Noise level  
**< 60 db (a)**

Weight  
**~ 83 kg**  
**~ 182 lb**

## Standard

- Round aluminum barrier arm
  - Minimum length 3.5 meter
  - Maximum length 5 meter
- Advanced logic barrier control
- Mechanical lock
- Dual loop detection
- Steel housing (2mm)
- Anti corrosion treatment
- 6 programmable outputs
- Housing in RAL9007 and RAL 9004

## Optional

- LED traffic light in barrier arm
- LED traffic light in barrier hood
- Integrated License Plate Recognition Camera
- IPC-R controller for ticketless parking
- Customized barrier arm length
- Barrier end steady post
- Raised base
- Steel foundation
- Housing in RAL color of choice
